# Agile Intermediate (55121123)

## Company Name

Capgemini India Technology services Pvt Ltd

## Employee Name

vivek.suresh-gengaje

## Date of Attempt

23-Feb-2026

## Employee ID

# Index

## How To Interpret The Report

Your guide to read the report and identify the important details.

## Score Analysis

Your scores, a quick overview of your performance and your overall percentage.

## Section Score Analysis

A quick overview of sectional performance along with percentages.

## Section Skill Analysis

An overview of your proficiency in specific skills.

## In-Depth Analysis on each Skill

An in-depth analysis on each soft skill, along with the skill definitions and proficiency description.

## Individual Development Plan - IDP

Focus on your strengths and the areas of improvement, along with developmental tips to work on.

## Difficulty Level Analysis

A comprehensive insight into the candidate's performance at 3 difficulty levels.

## Proctoring Analysis

A quick overview of the proctoring-related aspects of the assessment.

## Test Log

A quick overview of the test status, timestamp, and recorded IP address.

## Question Details

An overview of each question and the candidate's response, offering a thorough assessment of their performance.

## Disclaimer

Disclaimer on subjective customised assessments.

## How To Interpret The Report

*Introduction of the assessment*

*When interpreting the results, it's crucial to recognize that the scores are not indicative of being either good or bad; rather, they indicate varying degrees of suitability for specific types of work. The accuracy of these results hinges on one's honesty and self-awareness during the test.*

*This assessment evaluates Power Skills that may be evident in workplace behavior and, consequently, impact job success.*

**To make the most of this report:**

1. **Interpreting the Report:**

Start by assessing the overall score. Depending on your requirements, prioritize candidates who have scored above 80%, followed by those above 60%. When faced with multiple candidates in the same recommendation range, delve into the competency results. Concentrate on the competencies you deem crucial for success in the role you're hiring for, using these scores to guide your selection process.

2. **Keep in Mind:**

This assessment is just one element of the hiring process. It's advisable to consider other information such as functional and job knowledge, background, and past behavior (e.g., through structured behavioral interviews), as well as reference checks, alongside the Power Skills report.

3. **Talent Management:**

If this assessment is employed for talent management purposes, it can provide valuable insights into an employee's strengths and areas for improvement.

4. **Individual Development Plan [IDP]:**

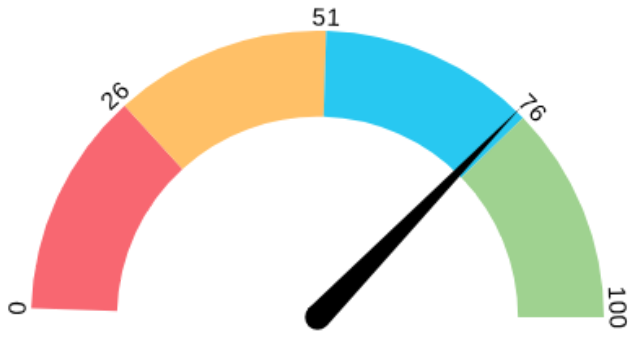
The IDP included in the report, when implemented as intended, empowers individuals to enhance their competencies without requiring managerial intervention.

## Score Analysis

Score: 45/ 60 | Time Taken: 31 min 3 sec / 90 min

**Note:** Candidates answering in Section Switch mode receive an extra 5 minutes to allow time for navigating between sections, reviewing, and revising their answers.

Experienced (75%)



| Beginner | Intermediate | Experienced | Proficient |
|---|---|---|---|
| (0% - 25%) | (26% - 50%) | (51% - 75%) | (76% - 100%) |

**vivek.suresh-gengaje** scored **75%** and completed assessment in **35%** of the alloted time

Test Navigation Mode: Section Switch

## Section Score Analysis

| Section | Percentage |
|---|---|
| Frameworks | 16/18 (89%) |
| Mindset & Behaviours | 5/10 (50%) |
| Techniques & Practices | 7/12 (58%) |
| Engineering | 17/20 (85%) |

## Section Skill Analysis

### Section 1: Frameworks

Total Score: **16/ 18** Negative Points: **0** Time Taken: **7 min 22 sec/28 min**

Question Analysis:

Total Question: **18** Correct: **16** Wrong: **2** Skipped: **0** Not Answered: **0**

| Skills | #Questions | Skill Score |
|---|---|---|
| Frameworks_Scrum | 7 | 7/7 |
| Frameworks_Scaled Agile - Concepts | 3 | 3/3 |
| Frameworks_Scaled Agile - Advanced | 5 | 4/5 |
| Frameworks_Kanban | 3 | 2/3 |

### Section 2: Mindset & Behaviours

Total Score: **5/ 10** Negative Points: **0** Time Taken: **5 min 33 sec/15 min**

**Question Analysis:**

Total Question: **10** Correct: **5** Wrong: **5** Skipped: **0** Not Answered: **0**

| Skills | #Questions | Skill Score |
|---|---|---|
| Mindset & Behaviours_Continuous Learning | 3 | 2/3 |
| Mindset & Behaviours_Customer Focus | 4 | 1/4 |
| Mindset & Behaviours_Ownership and Collaboration | 3 | 2/3 |

### Section 3: Techniques & Practices

Total Score: **7/ 12** Negative Points: **0** Time Taken: **9 min 30 sec/18 min**

**Question Analysis:**

Total Question: **12** Correct: **7** Wrong: **5** Skipped: **0** Not Answered: **0**

| Skills | #Questions | Skill Score |
|---|---|---|
| Techniques & Practices_Collaborative Development | 4 | 1/4 |
| Techniques & Practices_Metrics | 5 | 4/5 |
| Techniques & Practices_User Stories | 3 | 2/3 |

### Section 4: Engineering

Total Score: **17/ 20** Negative Points: **0** Time Taken: **8 min 22 sec/29 min**

Question Analysis:

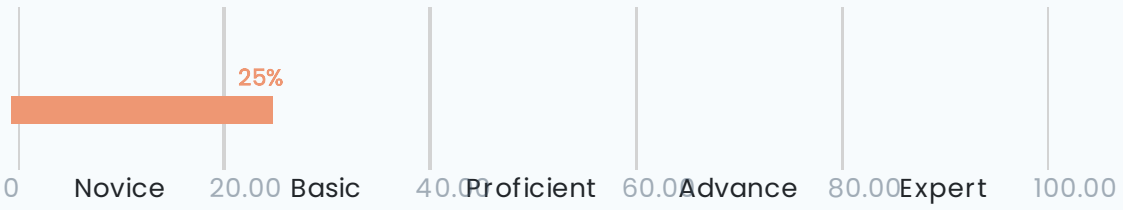
Total Question: **20** Correct: **17** Wrong: **3** Skipped: **0** Not Answered: **0**

| Skills | #Questions | Skill Score |
|---|---|---|
| Engineering_Devops - concepts | 5 | 4/5 |
| Engineering_Devops - advanced | 5 | 3/5 |
| Engineering_Testing TDD | 5 | 5/5 |
| Engineering_Testing Advanced Automation | 5 | 5/5 |

## In-depth Analysis:

### Customer Focus :

Customer Focus is the ability to demonstrate the ability to gain deep insights into customer needs, identifying opportunities that benefit customers. Customer-focused individuals are skilled in building and delivering solutions that align with customer expectations, ensuring high satisfaction levels. They maintain an open communication channel with the customer to keep them updated. These individuals excel in establishing and maintaining effective customer relationships, which is crucial for long-term success in any business.



25 Basic

The individuals tend to react to customer requests but may not deeply understand their underlying needs. Due to a lack of empathy, it could be challenging for them to grasp and address customer requirements promptly. Communication and keeping customers informed could be areas where they fall short. Building rapport and cultivating customer relationships may take time for them. To improve their relationship with their customers, such individuals must work on developing sensitivity and awareness to enhance their customer relationships.

## A guide to get started on your Individual Development Plan (IDP) :

## Identification of strengths and skill improvement needs

**Strength**

Congratulations! We have identified **Continuous Learning, DevOps, Authorization Frameworks, Metrics Management, Testing Methodologies, User Stories, Accountability & Ownership, Automation** as your strengths.

**Improvement area**

Based on your score, **Collaborative Skills, Customer Focus** are the identified areas of improvement.

## Importance of Customer Focus for you and your organization

To be able to have a healthy relationship with clients/customers and understand their needs for the work/projects ahead. Customer Focus is the major determinant of the success or failure of an organization. Making an effort to understand the situation in which customers are, helps you get them where they want to be. 

### Set skill improvement goals for the future

**Build constructive feedback skills**

1. To receive Positive feedback from customers.
2. To ensure Rapid response to customer queries and needs.
3. To Focus on customer wants and expectations.
4. To Focus on building a constructive relationship with customers.

## Improvement area : Customer Focus

**Act on a short-term & long-term plan:**

30 days

60 days

90 days

1. Know the customer's primary goal and needs.
2. Listen actively.
3. Have patience and make space for the customer's ideas.
4. Solve issues on a daily basis.

1. Make the support team accessible.
2. Be proactive when communicating company changes.
3. Look for product improvements.
4. Identify 'at risk' customers and implement effective measures to retain them.

1. Collaborate with the customer.
2. Take customer feedback and evaluate the customer satisfaction index.

## Difficulty Level Analysis

| Level | Number of Questions | Correct Attempts | Correctness |
|---|---|---|---|
| Easy | 60 | 45 | 75% |
| Medium | 0 | 0 | 0% |
| Hard | 0 | 0 | 0% |

## Proctoring Analysis

Images Captured: 63 Image Violations: 0

Image violations detected, within tolerable limit.

| | |
|---|---|
| Multiple Faces Detected | 0 |
| No Face Detected | 0 |
| Unrecognized Face Detected | 0 |

Note: The total violations are based on the custom violation settings for this test. The number of consecutive images considered as one violation is configured for all the categories (Unrecognized Face, Multiple Faces, No Face) and may differ from the default settings.

Window Violation: 0 Time Violation: 0 min 0 sec

## Test Log

| Test Status | Date & Time | Captured IP address |
|---|---|---|
| Appeared On | 23 Feb 2026, 10:55 AM | 136.226.232.190 |
| Completed On | 23 Feb 2026, 11:26 AM | 136.226.232.190 |

| Test Status | Date & Time | Captured IP address |
|---|---|---|
| Report Generated On | 23 Feb 2026, 11:26 AM | 136.226.232.190 |

## Question Details

| | | | |
|---|---|---|---|
| Question: **#1** | Type: **MCQ** | Skill: **Frameworks_Scaled Agile - Advanced** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **19 sec** | Average Time: **33.9 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #1**

SAFe defines a set of levels to help manage the complexity and coordination of large, multi-team projects, which of the following is not a level in SAFe?

**Answer:**

Project Level

| | | | |
|---|---|---|---|
| Question: **#2** | Type: **MCQ** | Skill: **Frameworks_Kanban** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **19 sec** | Average Time: **40.7 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #2**

A cumulative flow diagram shows

**Answer:**

Quantity of work in a given state

| | | | |
|---|---|---|---|
| Question: **#3** | Type: **MCQ** | Skill: **Mindset & Behaviours_Continuous Learning** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **26 sec** | Average Time: **26.84 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #3**

Which of the following is a key principle of Agile Continuous Learning?

**Answer:**

Continuous improvement

| | | | |
|---|---|---|---|
| Question: **#4** | Type: **MCQ** | Skill: **Mindset & Behaviours_Customer Focus** | Status: **Answered** |
| Result: **Wrong** | Level: **Easy** | Time Taken: **20 sec** | Average Time: **24.63 sec** |
| Score: **0 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #4**

Software engineering standards are important for reducing risk, cost and complexity. To do this, the teams need to take care of

**Answer:**

Database design

| | | | |
|---|---|---|---|
| Question: **#5** | Type: **True or False** | Skill: **Techniques & Practices_Metrics** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **57 sec** | Average Time: **24.97 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #5**

A key focus of agile metrics is on value delivered to customers - instead of measuring "what" or "how much" we are doing, we measure how it impacted a customer

**Answer:**

True

| | | | |
|---|---|---|---|
| Question: **#6** | Type: **True or False** | Skill: **Techniques & Practices_Metrics** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **1 min 30 sec** | Average Time: **23.69 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #6**

It is not a good idea to compare velocity across teams because story points and definition of done can vary between teams.

**Answer:**

True

| | | | |
|---|---|---|---|
| Question: **#7** | Type: **MCQ** | Skill: **Techniques & Practices_Metrics** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **32 sec** | Average Time: **26.61 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #7**

Cumulative Flow Diagram(CFD) shows the status of tasks -

**Answer:**

All of these

| | | | |
|---|---|---|---|
| Question: **#8** | Type: **MCQ** | Skill: **Techniques & Practices_User Stories** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **26 sec** | Average Time: **26.87 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #8**

What is a user story?

**Answer:**

A short, simple descriptions of a feature

| | | | |
|---|---|---|---|
| Question: **#9** | Type: **MCQ** | Skill: **Techniques & Practices_User Stories** | Status: **Answered** |
| Result: **Wrong** | Level: **Easy** | Time Taken: **42 sec** | Average Time: **39.14 sec** |
| Score: **0 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #9**

What is a story point?

**Answer:**

a number that tells the team how many times a story has been requested

| | | | |
|---|---|---|---|
| Question: **#10** | Type: **MCQ** | Skill: **Engineering_Devops - concepts** | Status: **Answered** |
| Result: **Wrong** | Level: **Easy** | Time Taken: **23 sec** | Average Time: **28.23 sec** |
| Score: **0 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #10**

What is the purpose of a Configuration Management tool in DevOps?

**Answer:**

All of the above

| | | | |
|---|---|---|---|
| Question: **#11** | Type: **MCQ** | Skill: **Engineering_Devops - advanced** | Status: **Answered** |
| Result: **Wrong** | Level: **Easy** | Time Taken: **21 sec** | Average Time: **24.93 sec** |
| Score: **0 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #11**

What is the purpose of continuous integration in DevOps?

**Answer:**

All of the above

| | | | |
|---|---|---|---|
| Question: **#12** | Type: **MCQ** | Skill: **Engineering_Testing TDD** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **22 sec** | Average Time: **31.11 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #12**

What types of automated testing activities are included in the continuous integration process?

**Answer:**

Unit and integration testing

| | | | |
|---|---|---|---|
| Question: **#13** | Type: **MCQ** | Skill: **Engineering_Testing TDD** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **22 sec** | Average Time: **28.71 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #13**

Which testing is based on the expected behavior of the software being developed?

**Answer:**

Behaviour driven development

| | | | |
|---|---|---|---|
| Question: **#14** | Type: **MCQ** | Skill: **Engineering_Testing Advanced Automation** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **19 sec** | Average Time: **28.51 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #14**

What is the name of the process in TDD where a failing test is written before any code is written?

**Answer:**

Red phase

| | | | |
|---|---|---|---|
| Question: **#15** | Type: **MCQ** | Skill: **Frameworks_Scrum** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **24 sec** | Average Time: **40.33 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #15**

Which of the following is delivered at the end of the Sprint?

**Answer:**

An increment of Done software

| | | | |
|---|---|---|---|
| Question: **#16** | Type: **MCQ** | Skill: **Frameworks_Scrum** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **26 sec** | Average Time: **37.35 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #16**

Which of the following activity/event is not timeboxed

**Answer:**

Product Backlog Refinement

| | | | |
|---|---|---|---|
| Question: **#17** | Type: **MCQ** | Skill: **Frameworks_Kanban** | Status: **Answered** |
| Result: **Wrong** | Level: **Easy** | Time Taken: **37 sec** | Average Time: **47.57 sec** |
| Score: **0 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #17**

What is the main objective of using "pull system" in Kanban?

**Answer:**

To ensure that team members pull work from each other as soon as it is ready

| | | | |
|---|---|---|---|
| Question: **#18** | Type: **MCQ** | Skill: **Mindset & Behaviours_Customer Focus** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **27 sec** | Average Time: **25.69 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #18**

Agile customer focus emphasizes on _ _ _ _ _ _ _ _ _ _

**Answer:**

Regular customer engagement

| | | | |
|---|---|---|---|
| Question: **#19** | Type: **MCQ** | Skill: **Mindset & Behaviours_Ownership and Collaboration** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **25 sec** | Average Time: **31.95 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #19**

The Agile Manifesto values:

**Answer:**

Customer collaboration and responding to change

| | | | |
|---|---|---|---|
| Question: **#20** | Type: **True or False** | Skill: **Mindset & Behaviours_Ownership and Collaboration** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **1 min 20 sec** | Average Time: **25.21 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #20**

Giving teams clear responsibilities and providing space for them to organise and manage themselves allows more freedom to meet goals and overcome challenges

**Answer:**

True

| | | | |
|---|---|---|---|
| Question: **#21** | Type: **Multiple Answer** | Skill: **Techniques & Practices_Collaborative Development** | Status: **Answered** |
| Result: **Wrong** | Level: **Easy** | Time Taken: **39 sec** | Average Time: **36.19 sec** |
| Score: **0 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #21**

Steps to being and doing agile successfully are -

**Answer:**

All of these

| | | | |
|---|---|---|---|
| Question: **#22** | Type: **MCQ** | Skill: **Techniques & Practices_Metrics** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **33 sec** | Average Time: **26.19 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #22**

Following Agile business metrics will help in determining if the organization is embodying agile principles, the business metrics are -

**Answer:**

All of these

| | | | |
|---|---|---|---|
| Question: **#23** | Type: **MCQ** | Skill: **Engineering_Devops - concepts** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **55 sec** | Average Time: **25.11 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #23**

Which tool can be used to create and manage user stories and epics in Agile development?

**Answer:**

JIRA

| | | | |
|---|---|---|---|
| Question: **#24** | Type: **MCQ** | Skill: **Engineering_Devops - advanced** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **27 sec** | Average Time: **24.29 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #24**

What is the purpose of continuous monitoring in DevOps?

**Answer:**

All of the above

| | | | |
|---|---|---|---|
| Question: **#25** | Type: **MCQ** | Skill: **Engineering_Testing Advanced Automation** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **21 sec** | Average Time: **29.72 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #25**

What is the name of the process in TDD where the code is written to pass the failing test?

**Answer:**

Green phase

| | | | |
|---|---|---|---|
| Question: **#26** | Type: **MCQ** | Skill: **Frameworks_Scrum** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **16 sec** | Average Time: **37.13 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #26**

What does a burn down chart represent?

**Answer:**

Remaining work with respect to time

| | | | |
|---|---|---|---|
| Question: **#27** | Type: **MCQ** | Skill: **Techniques & Practices_Collaborative Development** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **30 sec** | Average Time: **25.38 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #27**

Activities of FDD are -

**Answer:**

All of these

| | | | |
|---|---|---|---|
| Question: **#28** | Type: **Multiple Answer** | Skill: **Techniques & Practices_Collaborative Development** | Status: **Answered** |
| Result: **Wrong** | Level: **Easy** | Time Taken: **21 sec** | Average Time: **37.74 sec** |
| Score: **0 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #28**

Teams that are doing Agile will utilize modern DevOps tools that simplify the continuous integration and delivery process, they are-

**Answer:**

None of these

| | | | |
|---|---|---|---|
| Question: **#29** | Type: **MCQ** | Skill: **Techniques & Practices_Collaborative Development** | Status: **Answered** |
| Result: **Wrong** | Level: **Easy** | Time Taken: **35 sec** | Average Time: **26.28 sec** |
| Score: **0 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #29**

The basic expectations to keep the Agile process running smoothly are

**Answer:**

Guidelines - The guidelines should be clear to help individuals navigate through the process

| | | | |
|---|---|---|---|
| Question: **#30** | Type: **MCQ** | Skill: **Techniques & Practices_User Stories** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **39 sec** | Average Time: **29.51 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #30**

Which of the following questions is NOT answered by a user story?

**Answer:**

How

| | | | |
|---|---|---|---|
| Question: **#31** | Type: **MCQ** | Skill: **Engineering_Devops - advanced** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **20 sec** | Average Time: **31.64 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #31**

What is the primary goal of continuous integration?

**Answer:**

To automatically build and test code changes

| | | | |
|---|---|---|---|
| Question: **#32** | Type: **MCQ** | Skill: **Engineering_Devops - advanced** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **18 sec** | Average Time: **24.32 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #32**

Which tool is commonly used for continuous integration in DevOps?

**Answer:**

Jenkins

| | | | |
|---|---|---|---|
| Question: **#33** | Type: **MCQ** | Skill: **Engineering_Testing Advanced Automation** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **20 sec** | Average Time: **42.07 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #33**

What is the name of the process in TDD where the code is refactored to meet the desired design and maintainability?

**Answer:**

Blue phase

| | | | |
|---|---|---|---|
| Question: **#34** | Type: **MCQ** | Skill: **Engineering_Testing Advanced Automation** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **19 sec** | Average Time: **28.1 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #34**

What is the name of the BDD tool that allows for the execution of Gherkin-formatted tests?

**Answer:**

Cucumber

| | | | |
|---|---|---|---|
| Question: **#35** | Type: **MCQ** | Skill: **Frameworks_Scrum** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **39 sec** | Average Time: **41.48 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #35**

when is the sprint backlog created?

**Answer:**

Its outcome of sprint planning meeting

| | | | |
|---|---|---|---|
| Question: **#36** | Type: **MCQ** | Skill: **Frameworks_Scaled Agile - Concepts** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **28 sec** | Average Time: **35.76 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #36**

Which of the below competencies aligns strategy and execution by applying Lean and systems thinking approaches to strategy and investment funding, Agile portfolio operations, and governance?

**Answer:**

Lean portfolio management

| | | | |
|---|---|---|---|
| Question: **#37** | Type: **MCQ** | Skill: **Frameworks_Scaled Agile - Advanced** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **17 sec** | Average Time: **37.55 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #37**

You are working on a large-scale project with a distributed team. Which of the following would be the best approach to coordinate the work of the different teams?

**Answer:**

Using a scaled agile framework such as SAFe or LeSS

| | | | |
|---|---|---|---|
| Question: **#38** | Type: **MCQ** | Skill: **Frameworks_Scaled Agile - Advanced** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **19 sec** | Average Time: **38.19 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #38**

Your team is working on a large, complex project using the Scaled Agile Framework (SAFe). Your manager has asked you to lead the next planning meeting. What should be the primary focus of this meeting?

**Answer:**

To plan and prioritize upcoming work

| | | | |
|---|---|---|---|
| Question: **#39** | Type: **MCQ** | Skill: **Mindset & Behaviours_Continuous Learning** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **43 sec** | Average Time: **27.91 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #39**

Agile continuous learning emphasizes on _ _ _ _ _ _ _ _ _ _

**Answer:**

Regular training and development for the team

| | | | |
|---|---|---|---|
| Question: **#40** | Type: **MCQ** | Skill: **Mindset & Behaviours_Continuous Learning** | Status: **Answered** |
| Result: **Wrong** | Level: **Easy** | Time Taken: **29 sec** | Average Time: **32.62 sec** |
| Score: **0 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #40**

Agile Continuous Learning can be best supported by _ _ _ _ _ _ _ _ _ _

**Answer:**

A centralized decision-making process

| | | | |
|---|---|---|---|
| Question: **#41** | Type: **Multiple Answer** | Skill: **Mindset & Behaviours_Customer Focus** | Status: **Answered** |
| Result: **Wrong** | Level: **Easy** | Time Taken: **39 sec** | Average Time: **31.32 sec** |
| Score: **0 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #41**

Design Thinking ways to measure the success of efforts are

**Answer:**

All of these

| | | | |
|---|---|---|---|
| Question: **#42** | Type: **MCQ** | Skill: **Mindset & Behaviours_Ownership and Collaboration** | Status: **Answered** |
| Result: **Wrong** | Level: **Easy** | Time Taken: **23 sec** | Average Time: **33.25 sec** |
| Score: **0 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #42**

How does "Cross-functional teams" support Agile collaboration?

**Answer:**

By improving the flow of work

| | | | |
|---|---|---|---|
| Question: **#43** | Type: **Multiple Answer** | Skill: **Techniques & Practices_Metrics** | Status: **Answered** |
| Result: **Wrong** | Level: **Easy** | Time Taken: **2 min 6 sec** | Average Time: **35.67 sec** |
| Score: **0 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #43**

To measure code coverage, the parameters which need to be measured are

**Answer:**

Branches or condtions, Statements

| | | | |
|---|---|---|---|
| Question: **#44** | Type: **MCQ** | Skill: **Engineering_Devops - concepts** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **48 sec** | Average Time: **20.18 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #44**

Which of the following is a key practice of DevOps?

**Answer:**

All of the above

| | | | |
|---|---|---|---|
| Question: **#45** | Type: **MCQ** | Skill: **Engineering_Devops - advanced** | Status: **Answered** |
| Result: **Wrong** | Level: **Easy** | Time Taken: **18 sec** | Average Time: **34.02 sec** |
| Score: **0 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #45**

Which tool is commonly used for monitoring and logging in DevOps?

**Answer:**

Prometheus

| | | | |
|---|---|---|---|
| Question: **#46** | Type: **MCQ** | Skill: **Engineering_Testing TDD** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **26 sec** | Average Time: **24.93 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #46**

Who is responsible for testing in an Agile development team?

**Answer:**

The entire team

| | | | |
|---|---|---|---|
| Question: **#47** | Type: **MCQ** | Skill: **Engineering_Testing Advanced Automation** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **23 sec** | Average Time: **22.24 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #47**

What is the benefit of using TDD in software development?

**Answer:**

All of the above

| | | | |
|---|---|---|---|
| Question: **#48** | Type: **MCQ** | Skill: **Frameworks_Scrum** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **19 sec** | Average Time: **34.59 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #48**

Which of the following option is used to measure the size of a user story for an Agile project?

**Answer:**

Story Points

| | | | |
|---|---|---|---|
| Question: **#49** | Type: **MCQ** | Skill: **Frameworks_Scrum** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **22 sec** | Average Time: **43.04 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #49**

Product Backlog should be ordered on the basis of

**Answer:**

Value of the items being delivered

| | | | |
|---|---|---|---|
| Question: **#50** | Type: **MCQ** | Skill: **Frameworks_Scrum** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **31 sec** | Average Time: **31.37 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #50**

What are the characteristics of an MVP?

**Answer:**

All of the above

| | | | |
|---|---|---|---|
| Question: **#51** | Type: **MCQ** | Skill: **Frameworks_Scaled Agile - Concepts** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **19 sec** | Average Time: **32.95 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #51**

When is the System Demo conducted during Program Execution?

**Answer:**

At the end of every Iteration

| | | | |
|---|---|---|---|
| Question: **#52** | Type: **MCQ** | Skill: **Frameworks_Scaled Agile - Concepts** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **50 sec** | Average Time: **38.41 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #52**

Organizational agility, lean-agile leadership, and agile product delivery are part of

**Answer:**

Core competencies of business agility

| | | | |
|---|---|---|---|
| Question: **#53** | Type: **MCQ** | Skill: **Frameworks_Scaled Agile - Advanced** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **20 sec** | Average Time: **27.51 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #53**

What is the time-box for a Program Increment (PI) in Scaled Agile Framework (SAFe)?

**Answer:**

8-12 weeks

| | | | |
|---|---|---|---|
| Question: **#54** | Type: **MCQ** | Skill: **Frameworks_Scaled Agile - Advanced** | Status: **Answered** |
| Result: **Wrong** | Level: **Easy** | Time Taken: **20 sec** | Average Time: **33.65 sec** |
| Score: **0 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #54**

What is the role of the Scaled Agile Framework (SAFe) "Product Manager" responsible for?

**Answer:**

Managing the project budget

| | | | |
|---|---|---|---|
| Question: **#55** | Type: **MCQ** | Skill: **Frameworks_Kanban** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **17 sec** | Average Time: **34.53 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #55**

Which one of the following is a reason to use the Kanban "pull" method?

**Answer:**

Both 2 & 3

| | | | |
|---|---|---|---|
| Question: **#56** | Type: **Multiple Answer** | Skill: **Mindset & Behaviours_Customer Focus** | Status: **Answered** |
| Result: **Wrong** | Level: **Easy** | Time Taken: **21 sec** | Average Time: **41.18 sec** |
| Score: **0 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #56**

Design Thinking primarily focuses on

**Answer:**

Problem solving

| | | | |
|---|---|---|---|
| Question: **#57** | Type: **MCQ** | Skill: **Engineering_Devops - concepts** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **30 sec** | Average Time: **19.56 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #57**

What is the full form of Devops?

**Answer:**

Development And Operations

| | | | |
|---|---|---|---|
| Question: **#58** | Type: **MCQ** | Skill: **Engineering_Devops - concepts** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **25 sec** | Average Time: **28.09 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #58**

What is DevOps?

**Answer:**

The collaboration and communication of both software developers and other information-technology (IT) professional while automating the process of software delivery and infrastructure changes

| | | | |
|---|---|---|---|
| Question: **#59** | Type: **MCQ** | Skill: **Engineering_Testing TDD** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **24 sec** | Average Time: **21.29 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #59**

Agile testing strategies might include

**Answer:**

All of the above

| | | | |
|---|---|---|---|
| Question: **#60** | Type: **True or False** | Skill: **Engineering_Testing TDD** | Status: **Answered** |
| Result: **Correct** | Level: **Easy** | Time Taken: **21 sec** | Average Time: **21.31 sec** |
| Score: **1 / 1** | Window Violation: **0 times** | Time Violation: **0 sec** | |

**Question #60**

Zero defect code is the goal of Agile testing

**Answer:**

False
